

LESSON PLAN

Date: Time: 60 mins Focus for Lesson: Presenting information as a web page

Lesson Plan No: 4 of 5

This lesson plan is linked to Activity No: 10 in “ideas for integrating ICT” Vol 4

Learning Intentions: To be able to present information in web page form.

New Vocabulary Copy, paste, heading, sub-headings Resources: Computers, word processing software

Time	Teacher Action	Pupils' Action / Pupils' Learning
<i>Introduction to Lesson</i>		
20 mins	Recap on how children have successfully written pieces of research information for KS1 and KS2. Show children how this work will eventually be presented. Allow children to look at school web site to see where information/web pages will be stored and how others can access information.	Children to read through written pieces to ensure they are suitable for audiences. Make any changes to written works that are required.
<i>Main part of Lesson:</i>		
30 mins	Show children how to open and create web pages. Demonstrate the use of tables to organise work and how to open documents and copy and paste information. Children to know how to find and save pictures for their page. Teach children how to use photographic manipulation software to crop and save pictures. Show children how to save their web pages and label them correctly – including page titles in HTML mode.	Children to create a web page for the information they have stored and written. Children begin to produce a web-page for KS1 or KS2. They will label web page with clear headings and sub headings and highlight text/vocabulary where required. They will find, crop, save and insert pictures into their web pages. Children can switch between different modes for editing web pages.
<i>Plenary:</i>		
10 mins	Show children how to switch between edit and preview modes to ensure that their web page appears as they have planned it. View other children's work to assess each other's achievements.	Children switch between edit and preview mode and make any necessary changes.

Homework opportunities: Design web pages for other subject areas or their own web pages, considering content and appearance.	Pupil Support: Class teacher working with small group.	Extension Activities: Ask some children to help with class homework page, copying and pasting information into page and checking appearance.
